

Press Release, November 11th, 2015

Ticket sale for Karate World Championships started

In Jakarta, Indonesia, where right now the World Championship for Juniors, Cadets and Under 21 is taking place, the official start of the ticket sale for the Karate World Championships 2016 was announced at the World Congress. A fully electronic booking system for both tickets and accommodation was established with the two partners OÖ Touristik and oeticket. That is another major contribution to achieve the eco-labelling the organizing committee (OC), supervised by Hans Werner Streicher and Ewald Roth, strives for.

“Based on the experience gained in Bremen, we assume to be sold out quickly”, said Hans Werner Streicher, who was present at the last World Championship 2014 in Bremen, Germany. There he was able to gather important information for the event in Austria 2016.

“It is not only going to be a great athletic celebration, but a unique event and inspiring example with people with disabilities´ full inclusion and our cultural focus” Ewald Roth confirms the vision of the World Championships in Austria.

Since 2010 the OC-heads are taking huge efforts from the application to the acceptance of the World Championships. Just under one year to go, the World Championships is on course. Many fans and friends of Karate-Do are already delighted. In addition to the federal state, the county and the city Linz also numerous private companies are involved in making the Karate World Championships an unforgettable event.
